THIRD QUARTER REPORT FY 1978

Social Services U.S.A.

Statistical Tables,
Summaries & Analyses
of Services Under
Social Security Act
Titles XX, IV-B,
& IV-A/C for Fifty
States & D.C.

April-June 1978

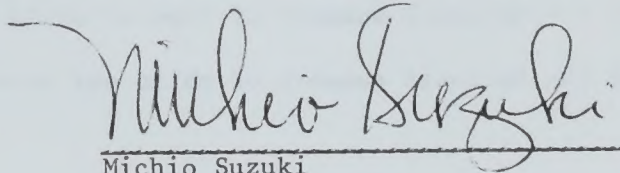

FOREWORD

Social Services USA, published by the Department of Health and Human Services, presents some basic dimensions of the Federally sponsored social service programs. This issue, Third Quarter Report FY 1978..., is one of a quarterly series which serves as an adjunct to the more comprehensive annual summary publication of the data. The annual edition includes graphics, some descriptive and analytical text, a glossary, program descriptions, and data collection forms, while the quarterly series contains resource tables only.

All of the information tabulated here was supplied by the 50 States and the District of Columbia. These reports provide the Federal Government with information about the number of individuals served, the services provided, and the costs of these services. This information is aggregated by DHHS to provide national statistics about these social services, delivered in accordance with the Federal/State partnership social service programs authorized by Congress under the Social Security Act, Title XX (the Social Services Program for Individuals and Families), Title IV-B (the Child Welfare Services Program), and Title IV-A/C (the Work Incentive Program). Adoption services, foster care services, day care for children and adults, homemaker services, counseling, protection against abuse and neglect, and special services to the disabled are among the services covered.

If you wish to continue to receive the publication, Social Services USA, in either its annual or quarterly form, please respond to the short questionnaire on the inside back cover. The purpose of this questionnaire is to correct and update our mailing list of people who wish to receive this information.

The Department of Health and Human Services welcomes your comments and suggestions.

A handwritten signature in dark ink, reading "Michio Suzuki". The signature is fluid and cursive, with a long horizontal line extending from the end of the name.

INTRODUCTION

The data presented here cover social services provided during the third quarter of fiscal year 1978 under three State/Federal social services programs authorized by the Social Security Act:

- o Title XX--social services programs for individuals and families.
- o Title IV-B--the Child Welfare Services (CWS) program.
- o Title IV-A/C--social services provided as support services to recipients of Aid to Families with Dependent Children (Title IV-A) who participate in the Work Incentive (WIN) program (Title IV-C).

General comments and technical notes comprise Section A, and specific reporting irregularities and data gaps are noted in Section B. Section C contains graphics and tabulations of data on the combined programs for the quarter covered in the report.

The tables in this report contain recipient and/or cost data; by type of service (including type of day care), by recipient category, by State, by quarter, and by method of service provision.

SECTION A. GENERAL COMMENTS AND TECHNICAL NOTES

The data presented here are based on social services quarterly reports submitted by the 50 States and the District of Columbia in response to Federal reporting requirements, 1/ for titles XX, IV-B, and IV-A/C. (See Social Services U.S.A., Annual Summary, October 1976 - September 1977 for data collection forms.) 2/ Title IV-B (the Child Welfare Services program) and title IV-A/C (WIN) reporting requirements were revised and integrated with those of title XX to avoid duplication and to help consolidate State and Federal reporting of social services under the Social Security Act.

LIMITATIONS OF DATA

When reviewing the tables, the following general limitations apply:

1. States have the option to produce the data required in the Social Services Reporting Requirements by 100 percent reporting, sampling, or a combination of the two techniques. Many States have chosen the option of sampling in order to produce SSRR data. When sampling techniques are used, the Federal Regional Office must approve the sampling methodology.
2. Due to billing lags and data processing time, costs reported for a given period will not necessarily correspond to the recipient counts reported for the same period. Therefore, in some cases average cost data will display some irregularity.
3. Some zeros are not true zeros. In some cases, recipients may have received services, but the data were not reported.
4. Data on day care, foster care, and protective services are usually classified as either for children or for adults. This distinction was not made, however, for some of the State submittals. Where possible, data were redistributed into "...-Children" and "...-Adults" classifications based on adult /child recipient counts. (This redistribution could be made only for data reported on the Form 2 series-Social Services Provided to Primary Recipients - and affects Tables 4 and 5.)

METHOD OF SERVICE PROVISION DATA

Because of differences in sources or methods used in estimating the data, costs from Form 3 (Method of Service Provision to Social Service Recipients) of the SSRR, presented in Table 7, differ slightly from costs shown in Tables 4 and 5 which are based on the Form 2 series.

1/ Social Services Reporting Requirements - OMB 85-R0335.

2/ U.S. Department of Health, Education, and Welfare, Office of Human Development Services, Publication No. (OHDS) 79-02020.

In some instances, the "Various" category of service for day care, foster care, and protective services, as reported on Form 3, could not be redistributed into "Adult" and "Child" as it was on Form 2. (These Form 3 tables are Tables 7 and 8.)

Reporting instructions request that information and referral data be reported only on Form 3. Therefore, the counts for this service are only given in the Form 3 tables - Tables 7 and 8.

SOCIAL SERVICES DEFINITIONS

Under title XX, each State develops its own Comprehensive Annual Services Program Plan (CASP) defining the services it intends to make available to eligible persons. The services specified in each of the 50 State plans, plus the District of Columbia, totaled 1,313, many of which were not comparable.

In order to achieve a national perspective of social services, an analysis was made of all of the State plans for the purpose of producing a common language, or taxonomy, of social services. This taxonomy, used in compiling the list of services presented in the tables, was developed for reporting purposes only. 1/ It does not change the intent of Section 2002 of title XX which allows States to determine and define the services which they plan to provide, in the manner they deem most appropriate.

The process of developing this taxonomy from the States' service definitions was complex. Its basis evolved from the activities and subactivities (or components) listed for each service in each State's annual services plan. Where the activities were similar in character, the services they represented were grouped under a common standard service descriptor, regardless of the name and title given the service by the State. It was not always possible to classify services simply according to activities. Services closely associated with target groups were classified on the basis of discrete activities when possible. When this was not possible, however, they were instead classified as special services to the particular target group, e.g., Special Services to the Blind.

In the taxonomy, the service category of "Other" was included to cover services provided by only a small number of States, where comparability among States was not possible.

1/ A TAXONOMY OF TITLE XX SOCIAL SERVICES, March 1976 (SHR #0000935). Prepared by Mott-McDonald Associates, Inc., Washington D.C., for the National Conference on Social Welfare under a grant from the (then) Social and Rehabilitation Service, U.S. Department of Health, Education, and Welfare.

Copies of the taxonomy showing all 1,313 services and how they are folded into the 41 used in the national reports on social services are available from the National Technical Information Service (NTIS). 1/ These 41 services were further consolidated into 37 services for many of the tables in this report.

1/ NTIS address - 5285 Port Royal Road, Springfield, VA 22161; publication number SHR0000935; paper copies - \$15; microfiche copies - \$3.50.

SECTION B. ANNOTATIONS TO TABLES

1. Average cost per recipient seems in some cases quite irregular because reported costs incurred do not necessarily correspond to reported recipients served during the quarter. This may affect Tables 4 and 5. For further explanation of this problem, see "Limitations of Data" in Section A.
2. West Virginia was not able to submit a report for this quarter.
3. Maryland did not submit cost data in time for inclusion in this report. This omission affects Tables 4, 5, 7, 9, and 10. Some indication of the extent of this omission is given by Maryland's proportion of the national costs--which was 2 percent for the last two quarters of FY'77.
4. Some service providers in California included in their estimates of primary recipients those who did not receive a service during the report quarter. This affects Tables 1, 2, and 3.
5. Mental health services data from Florida for the Income Eligible category were underreported. Roughly 20,000 primary recipients were excluded. This omission affects Tables 1, 2, and 4 through 7.
6. Table 10 is a National summary of child day care data by recipient category. Day care costs for "Other AFDC" in New York were reported and tabulated under "AFDC Training and Job Related."
7. The type of day care was unknown for Ohio for some of the children (about 4,000) and for all of their day care costs. These data were distributed for Tables 9 and 10 using Ohio data (for which type of day care was known) as the basis.
8. Blanks were used in the percentage columns of Tables 5, 7, and 10 where percents were less than 0.5.

SECTION C. QUARTERLY TABLES AND GRAPHS - SOCIAL SERVICES UNDER
TITLES XX, IV-B, AND IV-A/C

The following tables are based on reports submitted by the 50 States and the District of Columbia in response to the Federal reporting requirements explained in Section A. The programs covered are title XX, title IV-B (CWS), and title IV-A/C (WIN) of the Social Security Act.

Tables 1, 2, and 3 contain primary recipient counts on a State-by-State and a national basis. All of these tables are based on State submission of SSRR Form 1 - Count of Primary Social Services Recipients. 1/

Table 1 provides the total of primary recipients served under title XX, plus recipients served under titles IV-B and IV-A/C, during the quarter. The number of primary recipients who were adults and the number who were children are also included. (The title IV-B recipients are counted as children and the IV-A/C recipients are counted as adults.) This table also shows the number for whom services were initiated and the number for whom they were discontinued during the quarter.

The total recipient count is derived from the "Continued from Last Period" and "Initiated This Period" counts reported on Form 1.

Table 2 presents a count of primary recipients within each recipient category on a State-by-State and a national basis for the quarter.

Table 3 gives both a summary of data on title XX primary recipients in the Supplemental Security Income (SSI) category as well as a breakout for the subcategories of the aged, blind, and disabled.

Tables 4, 5, and 6 contain primary recipient and/or cost data for each type of social service. A count of States providing each service is also included. These three tables are based on State submission of SSRR Form 2 - Social Services Provided to Primary Recipients.

Table 4 presents the numbers of primary recipients of social services and the costs for providing those services on a State-by-State and national basis. The number of States providing the services and the average costs of provision per recipient are also shown. A primary recipient receiving more than one type of service (e.g., family planning and transportation services) was recorded one time for each service. This procedure also applies to Tables 5 and 6.

Table 5 is a national summary of the social services received by each category of recipient. The table presents, for each category, by service, the number of adult primary recipients, the number of

1/ See Social Services U.S.A., Annual Summary, October 1976 - September 1977 for data collection forms and a glossary of terms.

child primary recipients, total cost, percent of total cost (i.e., dollars spent to provide service X to recipient category Y, divided by dollars spent to provide service X to all recipient categories), and the average cost of the service per recipient.

Table 6 provides the number of primary recipients, the number of adults, the number of children, and a percentage distribution by category served for each service.

Tables 7 and 8 present data by "Method of Service Provision" for each service. Some services are provided directly by the State and local public social service agencies ("Direct Provision"); others are purchased by contractual agreement from other types of public agencies ("Purchase Public") or from profit or nonprofit vendors ("Purchase Private"). These two tables are based on SSRR Form 3 - Method of Service Provision to Social Services Recipients.

Table 7 includes recipient and cost data, with a percentage distribution of costs, by method of service provision. The recipient counts are of all recipients of social services--not just primary recipients. Reporting of instances of information and referral was specifically requested only on Form 3. Thus Table 7 is the only quarterly table which gives recipient and cost data for this service. Information and referral services also are unique in that instances of service provision are reported rather than recipient counts.

Table 8 shows the number of States providing each service directly, by purchase from the public sector, and by purchase from the private sector.

Data on day care, including the number of children served and the costs of care, by type of day care (and duration), may be found in Tables 9 and 10. These counts of children served reflect all child recipients rather than only primary recipients. These two tables are based on State submissions of SSRR Form 5 - Day Care Services Provided to Children.

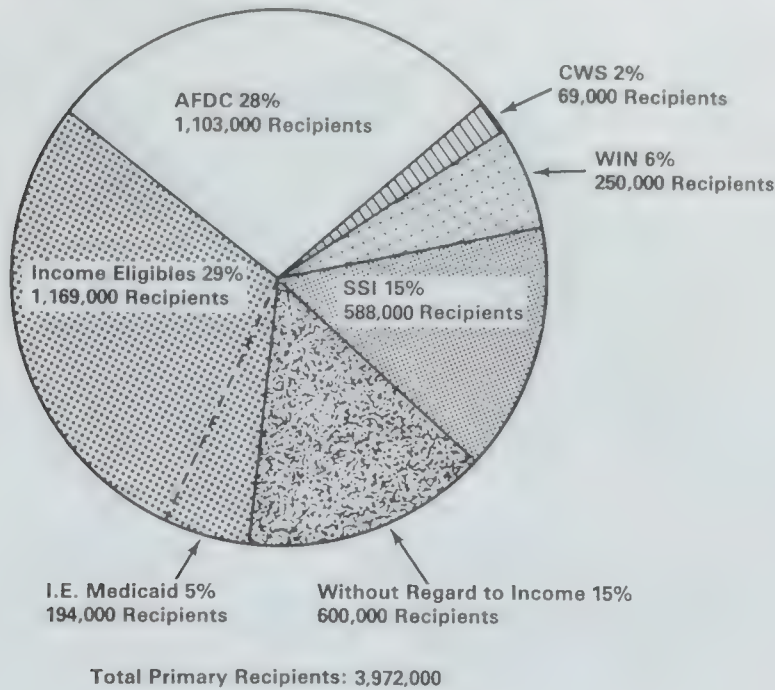

Table 9 summarizes information for the various types of day care delivered for each State, the number of children served, and costs.

Table 10 provides the national number of children receiving day care and the cost for each category of recipient.

NOTE: The terms "Medicaid," and "Income Eligible Medicaid (I.E. Medicaid)," are used interchangeably here to refer to recipients eligible for title XX services on the basis of income who receive medical assistance under title XIX who are not also AFDC or SSI recipients.

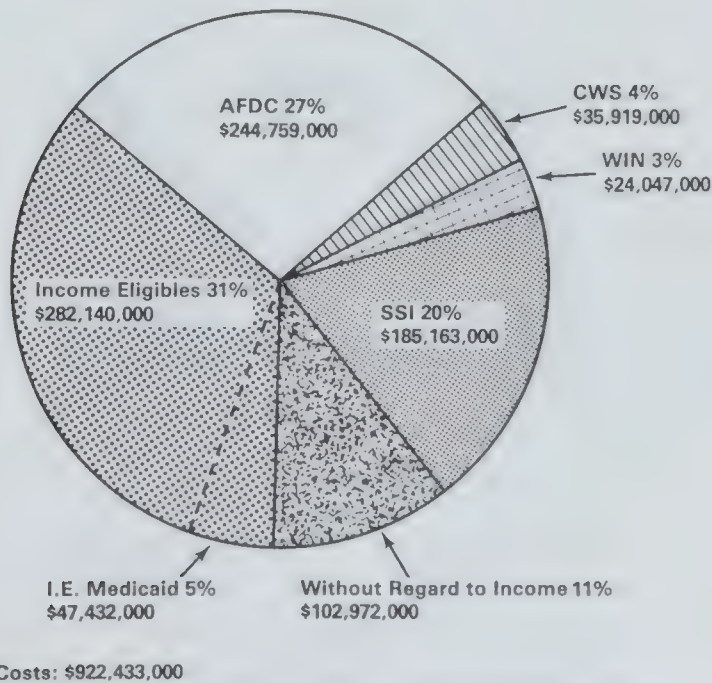

The term "Income Eligible (I.E.)" is used regarding recipients of title XX services eligible on the basis of income only, who are not in the AFDC, SSI, or Medicaid recipient categories.

Figure 1. Number and Percent of Primary Recipients of Social Services Under Title XX, CWS and WIN by Category, April-June 1978

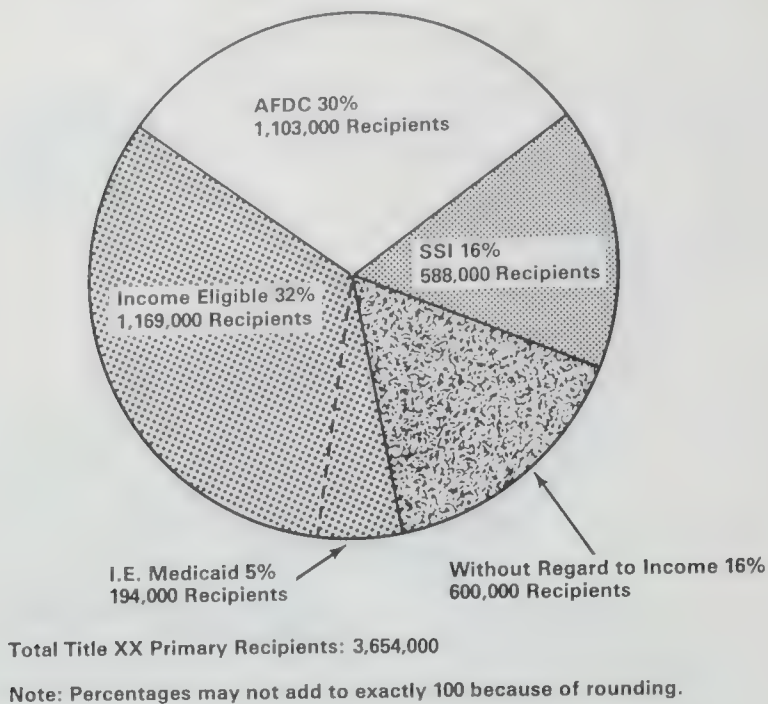

Legend:
AFDC = Aid to Families with Dependent Children
CWS = Child Welfare Services
I. E. Medicaid = Income Eligible Medicaid
SSI = Supplemental Security Income
WIN = Work Incentive Program

Figure 2. Total Costs of Social Services Under Title XX, CWS and WIN by Category, with Percent of Total, April-June 1978

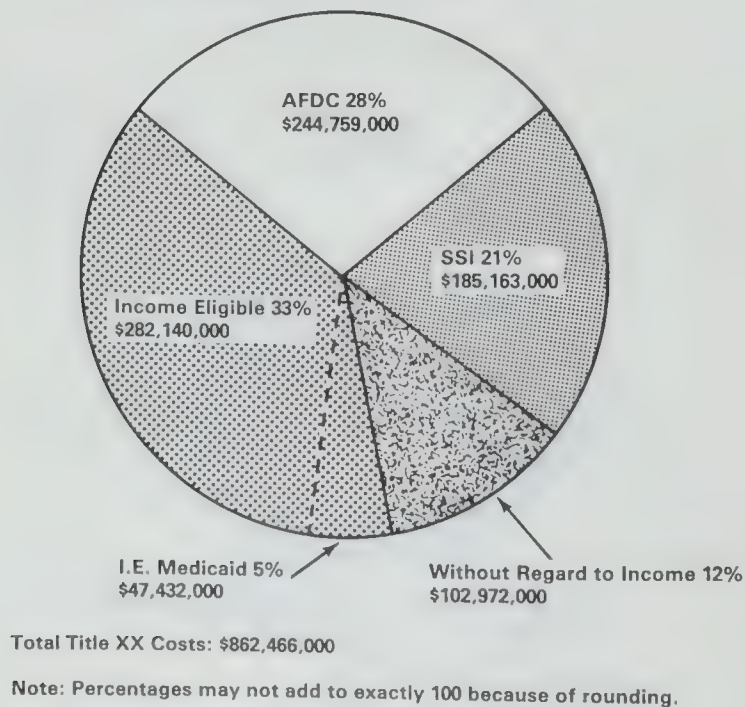

Note: Percentages may not add to exactly 100 because of rounding.

Figure 3. Number and Percent of Primary Recipients of Social Services Under Title XX by Category, April-June 1978

Legend:
 AFDC = Aid to Families with Dependent Children
 I.E. Medicaid = Income Eligible Medicaid
 SSI = Supplemental Security Income

Figure 4. Total Costs of Social Services Under Title XX by Category, with Percent of Total, April-June 1978
